EDUCATION

R.V.R & J.C College Of Engineering

B.Tech in Information Technology — CGPA: 8.66

Sept 2023 – Present

Guntur, Andhra Pradesh

RELEVANT COURSEWORK

- Data Structures and Algorithms
- Database Management Systems
- Artificial Intelligence
- Object Oriented Programming
- Operating Systems
- Machine Learning

EXPERIENCE

Quantum Image Processing Intern | NIT Warangal

May 2026 – Present

- Assisting in the development of a GUI-based system integrating transform-domain techniques and interpolation methods for advanced image processing applications.
- Working on DFT, DCT, and Walsh-Hadamard Transform based image scaling, comparative metric evaluation, and automated result analysis.
- Contributing to image quality assessment, transform-domain reconstruction, and report generation for research-oriented analysis.

Web Development Intern | SkillDzire

May 2025 – June 2025

- Assisted in developing responsive web applications using modern frontend and backend technologies.
- Worked on frontend design, backend integration, and user experience improvements across multiple modules.
- Gained hands-on experience in HTML, CSS, JavaScript, and deployment practices.

Machine Learning Intern | Coincent

Apr 2024 – Jun 2024

- Completed a Machine Learning internship focused on Python-based data analysis and model development concepts.
- Worked with fundamental machine learning techniques, data preprocessing, and model evaluation using Python libraries.
- Gained practical exposure to AI/ML workflows, problem-solving, and real-world application development.

PROJECTS

AI Interview Coach | React.js, Node.js, Express.js, MongoDB, Google Gemini AI

September 2025

- Developed an AI-powered mock interview platform that generates interview questions from resumes and job descriptions using Google Gemini AI.
- Integrated PDF resume parsing and implemented text, audio, and video answer recording features for realistic interview practice.
- Built secure backend APIs using Express.js and MongoDB for authentication, file uploads, and interview data management.
- Designed an interactive React.js frontend with dynamic question generation and AI-based feedback to improve communication and interview skills.

IoT Based Anti-Cheating Examination Monitoring System | ESP32-CAM, IoT, Embedded Systems, WiFi Networking, Embedded C

May 2026

- Developed an IoT-based anti-cheating examination monitoring system using ESP32-CAM, ultrasonic sensors, and buzzer alerts for real-time monitoring.
- Integrated live video streaming over WiFi for remote invigilation through browser-based access.
- Implemented distance-based suspicious activity detection using the HC-SR04 ultrasonic sensor to trigger automated alerts.
- Designed and tested sensor interfacing, GPIO-based alert systems, and real-time monitoring using Arduino IDE and Embedded C.

ACHIEVEMENTS & CERTIFICATIONS

- Completed **Machine Learning with AI** training by Internshala and **Machine Learning** certification by Scholiverse.
- Completed **AI Tools and ChatGPT Workshop** conducted by be10X.
- Completed **Python Full Stack** certification offered by EduSkills Academy.
- Successfully completed **Privacy and Security in Online Social Media** NPTEL certification with Elite status.
- Completed **Python Bootcamp** offered by LetsUpgrade.

SKILLS

Languages: Python, JavaScript, Java, C

Frontend: HTML, CSS, React.js

Backend: Node.js, Express.js, REST APIs, JWT Authentication

Database Systems: MySQL, MongoDB

Developer Tools: Git, GitHub, VS Code, Jupyter Notebook, LaTeX

Soft Skills: Time Management, Adaptability, Leadership, Punctuality

LEADERSHIP & EXTRACURRICULAR ACTIVITIES

Coordinator, IDCC (Coding Contest)

- Coordinated the organization and execution of the IDCC coding contest conducted at the college level, ensuring smooth event management and participant engagement.
- Collaborated with faculty members and student teams for event planning, scheduling, technical arrangements, and competition coordination.
